

The International Plywood Group is the exclusive UK Importer and Distributor of “Q-Ply” Chinese Q-Mark Plywood. “Q-Ply” is manufactured in China by Huaian Arser Wood Co Ltd. “Q-Ply” Structural Quality Panels are designed to give you peace of mind when specifying plywood for walls, roofing and flooring applications. The Q-Mark structural plywood scheme is a third party product certification scheme operated by BM TRADA Certification Ltd. The scheme covers factory production control, documentation and test assessment evidence. The resultant certification is specific to clearly defined products and their constituent components. One of the main objectives of the scheme is to provide specifiers, regulators and inspection authorities with the appropriate information to be able to identify suitable products for structural use. “Q-Ply” meets the requirements of EN636-3S and EN314-2 Class 3.

We can offer “Q-Ply” in 9mm, 12mm, 15mm, 18mm, 22mm and 25mm thicknesses. The standard sheet size is 2440mm x 1220mm.

“Q-Ply” plywood is FSC® 100% Certified.

We also hold stocks of a wide range of other Wood-Based Panel Products including:

Hardwood Plywood	Softwood Plywood	Marine Plywood
Oriented Strand Board (OSB)	Chipboard	Medium Density Fibreboard (MDF)
Birch Plywood	Blockboard	Doorblanks
Flexible Plywood	Film, Mesh and MDO Faced Plywood	Hardboard

FSC® and PEFC™ Certified Panels are always available from stock.
